Reduce Patient Leakage/340B/Readmission Mitigation/Medication Therapy Management

Telepharmacy Support

Expanded Pharmacy Access/Improved Labor Balancing/Real-Time Rx Verification/Surge Support

CAREPATHrx™

Health System Solutions

Improving patient outcomes and provider success.

THE BOTTOM LINE

More than **19 leading health systems** and over **190 hospitals** rely on CarepathRx Health System Solutions to capitalize on an expanding **specialty drug market** that has nearly tripled in size in the last decade.

- ✓ 80% of Specialty Medication Prescriptions originate in a health system or hospital setting.
Less than 15% of the 1st refill and 5% of the 3rd refill are captured by the initial provider.
- ✓ 80% of near-term FDA approvals in the pipeline are anticipated to be limited distribution drugs (LDDs).
On average, health systems and hospitals have access to less than 25% of LDDs.
- ✓ Discounted 340B purchases (a \$340 billion industry) accounts for as much as 8% of the US drug market.
Yet health systems and hospitals, on average, only capture 40% of these encounters.

**According to recent studies*

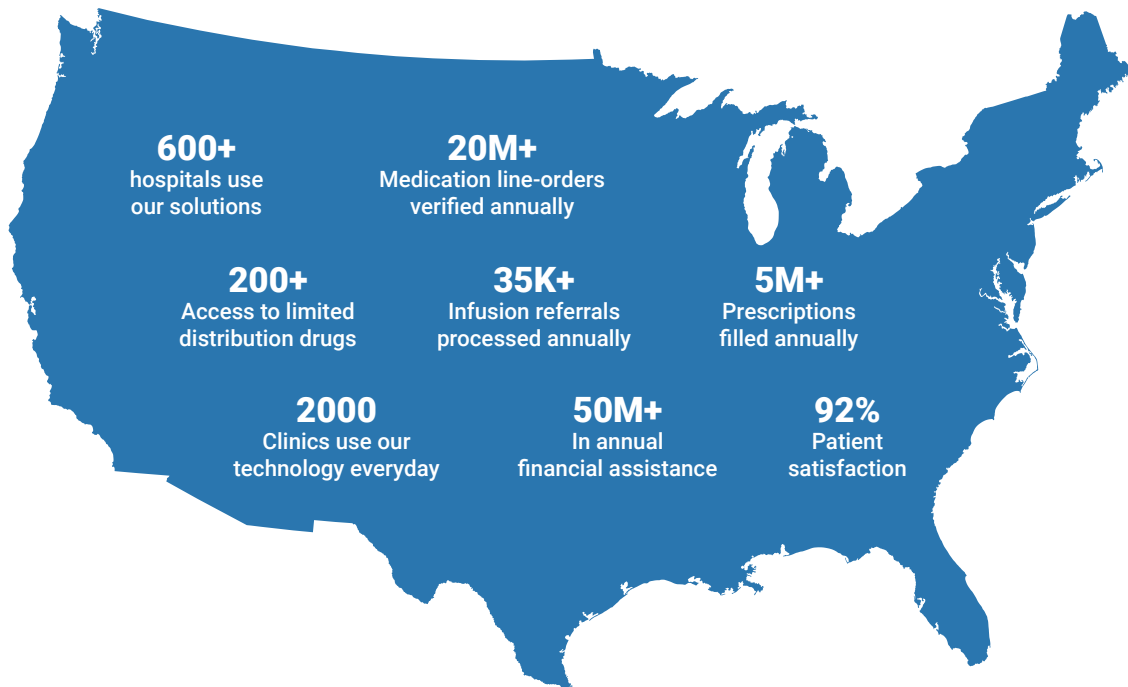

TRANSFORM YOUR PHARMACY OPERATIONS TODAY!

**Servicing patients
in all 50 states**

**Licensed to dispense
in all 50 states**

**More than 450 high-value
payor contracts**
